1d IMPERFS PLATED –RECONSTRUCTIONS etc - continued

The following **6 lots** are partial reconstructions from the late Ken Statham's collection. Although the stamps were selected by Ken for their plating quality rather than margins, they do contain many nice examples. Most have margins of some sort including 4 Margin and we notice that Ken has not tried to identify Distinctive Maltese Crosses. Most of the lots appear to have some very interesting unidentified crosses as well as varieties. We are pretty sure that they will be 100% plated correctly and represent a great opportunity to learn why Ken allocated them to the particular plate. Why not see if you can identify the individual characteristics

G1537	Plate 16 46 stamps, Plate 17 26 stamps, Plate 18 19 stamps. Total Cat from £6,540. Good Value at less than 5% of Cat.	£325
G1538	Plate 19 165 stamps from AA to TK. Total Cat from £9,095. Approx 5% of Cat	£495
G1539	Plate 20 133 stamps from AA to TI. Total Cat from £7,315. Less than 5% of Cat	£350
G1540	Plate 32 34 stamps from AC to TK, Plate 33 73 stamps from AG to TC. Several Very Interesting Crosses. Total Cat from £5,885. Good Value at approx 5% of Cat.	£325
G1541	Plate 34 53 stamps . Total Cat from £3,189. Good value at approx 5% of Cat	£165
G1542	Plate 36 63 Stamps from AA to TJ. Total Cat from £3,780. Good value at approx 5%	£195

G1546	Imperf 1d Red Plate 27 MX. Old style plating book containing 339 stamps with MX attributed to Plate 27 but not checked. Although some stamps have been removed it would form a good basis for a reconstructed plate. Several have varieties, incl Re-Entries and appear unchecked for Distinctive Crosses . Nos 3,5,7,8,9 & 10 in MX are included. Condition is mixed but many 4 Margin and virtually nothing less than 3 Margin Cat in excess of £18,600. Worth closer look at less than 6.5% Cat. Made it £1,500 Bargain at	£1200
G1547	41 x Plated/Unplated Maltese Cross from a reconstruction which was unplated mainly 3 to 4 margins with some perfect from letterings EK to JG. Most of others have slight faults but very presentable. The stamps have now been plated and although not guaranteed are by an experienced plater. We note plates 17 (1), 18 (1), 19 (15), 40 (1). Absolute Bargain at	£150
G1548	41 x Plated/Unplated Maltese Cross from unplated reconstruction, mainly 3 to 4 margins with some perfect from letterings OI to TB. Most of others have slight faults but very presentable. The stamps have now been plated and although not guaranteed are by an experienced plater. We note plates 5 (1), 12 (1), 14 (1), 18 (3), 19 (11), 37 (1), 39 (1), 40 (1), 44 (1) Huge cat value. Bargain at	£180
G1549	Attractive lot of 23 1d Red Imperfs including a vertical strip of 4 and 4 pairs . Most 3/4 margin or better with many of the singles having identifiable characteristics . Amongst these we notice a nice number 2 in cross (4M) Cat £140 , Plate 119 on Lavender Tinted Paper , superb 4M example, just a slight scissor cut at NW Cat £225 , Blue Maltese Cross Cat £550 but 2 margin, and a 3 margin copy with Black Town Cancel and Maltese Cross . The multiples are in excellent condition and one is plated as 131, which is not common in multiples. A lovely lot.	£200
G1550	Two album pages with some quite interesting Imperfs, which includes a reasonable block of 6 attributed to Plate 71 Cat £300 as a block of 4. Plate 28 pair, Plate 14 tied to piece, Plate 17, Plate 85 Major Re-entry , Plate 29 Double Letter, Plate 20 Vertical Guide Line, 2 pairs and a single from Alpha 2 (unplated). Although not 4 margin or checked by us, a very useful lot at just	£100

The following **5 partial reconstructions of Alphabet I**, all come from the same source. They have been collected and plated over a period of 40 years & include some multiples as well as many Fine 4 Margin copies. They would form an ideal basis for expanding to completion. We would expect a high degree of accuracy from this collector though we have not checked them for ourselves, we can see **varieties etc.** listed in Ken Statham's Essential Guide. An individual description is given for each lot. Please remember that we give a discount of at least 10% for the purchase of two or more lots and payment can be spread over up to 12 months.

G1551	1d Red Imperf Plate 30 Small interesting partial reconstruction of 35 letterings difficult plate all with Maltese Cross . Although most of the stamps appear to have slight defects many are good looking examples. This is added to by the presentable strip of 8 from the T Row, TB to TI with margins on 3 sides and in places at the top (the longest strip I can remember seeing from this plate), lovely looking strip of 4 OI to OL, margins close above NW square OI and touched and slightly cut into on side of OL, otherwise very good. It would make a superb pair, or attractive trio, or, as it is, a very difficult multiple of 4 from this scarce plate. Also, a good looking 4 margin copy with almost upright number 4 in Maltese Cross (has a pinhole) and at least two other stamps with varieties listed in Ken Statham's Essential Guide. The Cat value of £3,850 (QV 14 th Edition) ignores multiples, varieties and numbers in cross. Excellent lot for the specialist.	£500
G1552	1d Red Imperf Plate 61 – A superb partial reconstruction comprising of 190 stamps , which includes 5 pairs, a vertical strip of 3, strip of 4 (horiz), 2 blocks of 4 and at least 2 re-entries . Majority are 4 margin examples; those that are not 4 margin are generally at least 3 margin. Many appear to show characteristics that cross-reference to Ken Statham's Essential Guide, so it would suggest that the plating is above average as well. Based on quality, condition and multiples etc this is a superior part reconstruction and a very good basis to expand on. Minimum Cat value is £5,800. Excellent value at	£595
G1553	1d Red Imperf Plate 69 - A part reconstruction of 50 stamps, including block of 4 and 3 covers . Over 50% perfect 4 margin & appear to be different letterings, the block of 4 has margins and is reasonable (Cat £250). Plating is likely to be very accurate. Good lot at	£250

G1554	1d Red Imperf Plate 70 – Part reconstruction of 56 stamps and one cover . 55% appear to be perfect 4 margin, with the remainder $\frac{3}{4}$ margins. No duplication of letterings noticed. Plating is likely to be very accurate. Good basis to work from.	£230
G1555	1d Red Imperf Plate 71 –Lovely part reconstruction of 91 stamps mainly different letterings, incl very presentable block of 4, a lovely looking strip of 6, 5 strips of 4, one on cover (difficult), one strip of 3, 4 pairs and Lovely Good to Large 4 M SG re-entry (Statham P. 993), slight scissor cut into NW square, 46 other singles (one on cover, one with blue cancel) with several good 4 M, the rest being 3 to4 M or better. A really good lot to build from. Plating likely to be accurate.	£575
